

Cleopatra's Spa Treatment Menu (Facials)

Exotic facials:

International range of facials, using elemis products, the leading spa therapy range from UK and only available in the most exclusive spas worldwide. As all our facials deliver different benefits to different needs and tastes, first-time visitors are advised to make a consultation appointment so that a qualified specialist can help you select the treatment best suited to your skin's needs.

Elemis anti-ageing facials:

Elemis is currently the leading expert on anti-ageing working with doctors & skincare specialists they have created advanced formulations that challenge the ageing process.

Elemis skin specific facials:

This luxurious range of facials uses only aromatherapy products from the elemis range and is totally sympathetic to the skin, causing no disturbance or trauma. While each facial cleanses tones and exfoliates, the massage techniques used focuses on relaxing your skin and your mind. Your therapist will prescribe the relevant skin products carefully selected for your individual needs.

Elemis taster facial:

For those with a busy schedule who want to maintain a skincare programme. Using elemis products, this treatment is a condensed facial which cleanses tones, exfoliates and uses a mask but not your time.

Elemis time for men facials:

Elemis have specialised facials for men's skin, regular shaving can leave the skin more susceptible to ingrown hairs, razor bumps, sensitivity, blocked pores & congestion. A 3 phase system is used during the facial to combat the harsh ageing effects of frequent shaving & a hectic lifestyle.

Light therapy facials:

O-lys light therapy:

O-lys, meaning light in Norwegian, has become one of the most successful skincare treatments in the beauty business today. Found only at premium beauty spas, where staff are trained and qualified to diagnose its correct usage, this treatment uses the benefits of light to enhance your skin. This involves working a wand of various carefully researched lights in accordance with prescribed products through the skin. Different colours are used for different purposes through the skin. e.g. red light for improved circulation and cell renewal or blue for soothing irritated skin. Particularly for anti-ageing,

CLEOPATRA'S SPA

O-lys light therapy can be personalized for specific requirements and is much in demand for its incredible effects.
